

SAUSAGE/CHEESE APPETIZER

1-lb. sausage
(8-oz) cream cheese
2 pkgs. crescent rolls

Brown sausage, drain on paper towels and cool. (you can cook sausage the night before and refrigerate to save time!) Mix sausage with cream cheese. Roll out crescent rolls and drop a spoonful of mixture onto the widest end of each roll. Roll up beginning with the widest end. Bake 10 minutes at the temperature stated on the crescent roll package. Great for any occasion.

I used 3 pkgs. of crescent rolls. I found it mixes better if the cream cheese is warmed a little before mixing together. After taking the sausage out of the pan to drain, pour out any grease left in the pan and wash or wipe with a paper towel and let the cheese melt a little then add sausage back.

I also use Neese's Hot Sausage.
